larvae, otherwise known as grubs, maggots, caterpillars or worms. A larva feeds greedily, then changes into a pupa, which lies low until it emerges as a butterfly, beetle, fly or a moth, Some, like the Mexican bean beetle, skip one stage, and some, like grasshoppers, come from the egg as a small form of the adult.

Some larvae live underground, where they feed on roots. Among these are the white grubs so often turned up by the spade, Patches of

turned up by the spade. Patches of dead grass in a lawn may be caused by Japanese beetle grubs at work below. Young cabbage plants may wilt and die when the cabbage maggot, which later is a gray fly, emerges from eggs laid on the soil and goes down to the roots. They also invade radish roots in early spring. To protect cabbage, broccoli, or cauliflower plants, apply chlordane dust to roots when transplanting. Chlordane will also control cabbage maggots in radishes when applied in the furrow before covering the seed at planting time.

covering the seed at planting time. Chlordane is also a good weapon

against cut worms which chew the stems of young plants. Apply to

GETTING THE MOST ...

FROM YOUR GARDEN

By Lyman N. White

ASSOCIATED SEED GROWERS-

Outdoors in the summer, insects are everywhere-millions of

them, high and low in the air over your garden, others on or

below the ground and on your plants. Some insects help our

plants, carrying pollen from plant to plant while gathering their food, eating other harmful insects, or improving the soil by their operations in it. Others harm our plants, so we seek to control or destroy them. To do this effectively, we should know something about them.

Most insects lay eggs, though aphids, or plant lice, are born ready for action. From the eggs may come larvae, otherwise known as grubs.

soil surrounding plants.

The white cabbage butterfly lays eggs, on the underside of leaves, which become green cabbage worms and eat the leaves. Malathion dust

garden sprays and dusts. They tell you what's inside the container and the precautions to follow when using the contents.

NEXTWEEK: Summer Vegetables.

ord. Malathion and methoxychlor are among the safest and most ef-fective of the newer chemicals and comprise the "active ingredients" of several popular insecticide mix-tures. Applied to the whorl of young plants they will control corn bor-ers; dusted on the silks they will prevent much injury from corn ear-worms,

Handpicking is the simplest way to control some insect pests, for example the tomato hornworm, so

on its rear end. Handpicking is also a simple way to get rid of Japanese and similar beetles. They are slug-gish at dusk and may be readily

gish at dusk and may be readily knocked into a jar half filled with water, topped by a layer of oil, in which they soon perish.

Aphids are among the most common and harmful pests in the garden, sucking the vital injecs of plants.

den, sucking the vital juices of plan

and transmitting various plant dis-eases. The first rule in defense is to

begin dusting the moment they ap pear. Malathion is the most effec

tive weapon for gardeners. Malathion or methoxychlor will also control the tiny, dark flea beetles which chew small round holes in the leaves of young plants and the small round holes in the leaves

of young plants and the small, dart-ing leaf-hoppers, which spread plant

Always read the labels carefully when buying and before applying garden sprays and dusts. They tell

Mounting evidence not only indicates a possible cancer cure, but something even better—a serum to prevent it. And though perhaps a long way off, the day may come wher you will be immunized against cancer as you are against polio, small pox or diphtheria. ALL FOR THE CHURCH The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to
